EDUCATION

Degree	Institute/Board	CGPA/Percentage	Year
Bachelor of Technology	Indian Institute of Technology, Ropar	7.24	2020-2024
Senior Secondary	Board of Intermediate Education, Telangana	94.4	2019
Secondary	Board of Secondary Education, Telangana	8.8	2017

EXPERIENCE

• InfinityLearn

17 June 2024 - Now

SDE - 1

Project - Innobius (Core Revenue-Generating Platform)

Architected a scalable two-queue OMR pipeline (**AWS SQS + Lambda**) reducing processing time by **96.4%** via parallel OpenCV and **Gemini processing per chunk**, and migrated certificate generation to Lambda reducing generation time and resolving **concurrency** bottlenecks.

- Engineered and optimized multiple high-throughput **RESTful APIs (Async programming)** using **Python ,FastAPI, MongoDB, and Elasticsearch**, specifically designed to handle large-scale datasets for the Admin side portal.
- Built end-to-end integrations (Salesforce, Career Counseling test module, International Leads support) to centralize workflows and expand platform capabilities.
- Delivered core platform features, building dynamic frontend pages in **React JS**—including dynamic school data display, high-performance job log interfaces (**10K+ records, sub-second load**), custom offline solutions, and interactive school-level reports for **2,000+ students**

Project - LSQ Service :

- Architected solutions using **AWS Lambda and Google APIs** to process data from LeadSquared (LSQ) webhooks in real-time, automating key sales activity tracking workflows.
- Leveraged **Google's Gemini AI models** to build an automated tool for demo call analysis and auditing, boosting sales quality assessment by 40%. Leveraged Langfuse for **AI model observability (tracing, evaluation, cost latency monitoring)**, improving LLM output quality and reliability.

Project - Agent Management Portal:

- Architected a full-stack portal (**React.js, FastAPI, PostgreSQL**) with role, permission, category, and tag management, driving granular access control and operational efficiency.

• Codeunity Technologies Pvt Ltd.

20 May 2023 - 20 August 2023

Software developer intern

Github

Job portal Website Development:

Proficient in **Django Rest Framework** .Worked with various databases, including SQLite, PostgreSQL

- Spearheaded the integration of **Elasticsearch**, slashing search response time by 40% and boosting query throughput by >50% through custom indexing and specialized APIs.

E-commerce Website Development:

- Developed a secure e-commerce backend by implementing a **token-based (JWT) authentication** system that cut login times by 3x and worked on MongoDB and AWS S3 integration.

PROJECTS

– File Sharing Application

August 2023 - November 2023

Backend Project

- * Developed secure backend for file-sharing app using Django REST Framework, optimizing URL navigation and enhancing file transfer with Python zipping to reduce size.

– Implementation of Phone Directory and Suduko Solver

1 June 2021 - 20 June 2021

Data structures and Algorithms

Github

- * Used Doubly- Linked lists, arrays and used **backtracking concept**

– Ecommerce company Data analysis using Power BI

August 2023

TECHNICAL SKILLS

- Programming Languages:** Python ,SQL ,C,MySQL,C++, HTML, JavaScript,Java
- Tools/Frameworks:** Fastapi ,Django rest framework,Django,Reactjs, SQLAlchemy ,LLM ,Git
- Databases and others:** MongoDB, PostgreSQL, SQLite,Elasticsearch, AWS (Lambda, S3), Google Cloud Platform

POSITIONS OF RESPONSIBILITY

- Representative :** Placement Cell, IIT Ropar & President, TCA organized 4 events containing strength of 400 participants

MISCELLANEOUS

- Achievements,** JEE MAINS conducted by NTA ,JEE ADVANCED
